

Loss Evidence Required When Harvesting:

1. Where the crop is being **TURNED UNDER, CUT FOR FEED OR STRAIGHT COMBINED** leave standing and undisturbed a 20 X 20 foot strip, 100 feet in from the outside edge of the field, in each corner. For fields in excess of 80 acres, leave three additional strips down the centre of the fields.
2. If the crop is ready for **SWATHING**, leave no crop standing. Swath it all as the adjustment will be made from the swath. *****EXCEPTION: LEAVE STANDING SAMPLES OF PEAS AND LENTILS*****
3. Where the **SWATHED CROP IS BEING HARVESTED**, leave undisturbed a 30-40 foot strip of swath, 100 feet or at least 3 rows in from the edge of the field in each corner. For fields in excess of 80 acres leave an additional three strips down the centre of the field.

If a hail claim has been filed and **SUFFICIENT UNDISTURBED EVIDENCE OF THE CROP HAS NOT BEEN LEFT FOR INSPECTION**, the question of liability will be decided at Head Office.
